THE STRATEGY: WHAT EACH POST IS FOR

5 VIDEOS · FIND NEW PEOPLE

Reels are what Instagram shows to people who **don't follow TripNerd yet**. Each opens on a real event moment from your footage, with TripNerd as the payoff. One or two run first as **Trial Reels**, shown only to non-followers, so the strongest opening wins.

6 STATICS · KEEP AND CONVINCE

Carousels that fans and corporate hosts **save and send** while planning a trip, and proof posts that show how a TripNerd trip is handled. They turn viewers into followers, and followers into enquiries.

THE MONTH, WEEK BY WEEK

WEEK	POSTS	WHAT GOES UP
5–11 Oct	2	Setup (partner access, your starting numbers from Insights), then Reel 1 and owed static advert 1
12–18 Oct	3	The owed video advert, Reel 2, static 1
19–25 Oct	3	Reel 3, static 2, owed static advert 2
26 Oct–1 Nov	3	Reel 4, statics 3 and 4

Set times (Eastern): Reels Mon 2 PM or Wed 12 PM; statics Tue 1 PM or Thu 12:30 PM. Tuned to your own Insights after week one.

TO START, WE NEED

Partner access in Meta Business Suite (no passwords), **one approver** who replies within two business days, and **all your trip footage** in one shared Drive folder. The sooner the footage arrives, the sooner the Reels post.

THEN YOU DECIDE

Every Monday you see followers, views, the share from non-followers, sends, saves and follows on each video. In the first week of November we review October together, and **you decide what comes next**.
