

October: what \$1,500 buys

Prepared for Jason, CEO, TripNerd. One test month on your Instagram, priced item by item.

11 posts

8 new for \$1,500 (4 Reels and 4 statics), plus the 3 adverts owed from September (1 video and 2 statics), posted in October at no extra charge.

THE PRICE

WHAT YOU GET IN OCTOBER	QTY	STANDARD PRICE	OCTOBER
Reels, cut from your own trip footage	4	\$325 each	\$300 each = \$1,200
Static posts: carousels and proof posts	4	\$75 each	\$75 each = \$300
Stories, a Monday report with the analytics on every video, and 20 minutes of engagement every weekday	weekly	included	\$0
Owed from September: 1 video advert and 2 static adverts, due last month and not yet delivered	3	already paid	\$0
October total	11	\$1,600	\$1,500

October's Reel rate is \$300, the low end of our \$300–325 range. Statics stay at \$75. Boosting is separate (page 2).

■ New Reel ■ New static ■ Owed from September

Stories: 10 AM every Mon, Wed and Fri, plus each new post shared to your Story within 15 minutes. No weekend posts. Times move to your own best hours after week one.

Why this mix: the 5 videos are what Instagram shows to people who don't follow TripNerd yet, so they lead the month. The 6 statics are carousels people save while planning a trip, and proof posts showing how a trip is handled.

Growing your followers

What we do in every post and every day to reach new people, and one decision for you on boosting.

HOW WE'LL GROW YOUR FOLLOWERS

- **Open on the moment.** Every Reel starts on a big event moment from your footage, so Instagram shows it to people into that event.
- **Test before we commit.** Reel 2 runs as a Trial Reel, shown to non-followers first. The winning opening gets used again.
- **Made to be sent.** Each Reel gives people a reason to send it to the friend they'd take. Sends are one of the signals Instagram weighs most.
- **A reason to follow.** Your bio and every caption say what following TripNerd gets you.
- **Collab posts.** When a post features a venue or partner, we invite them as a collaborator, so it shows on their account too.

Ranking signals: Adam Mosseri, head of Instagram, January 2025.

IS THERE A BUDGET FOR BOOSTING POSTS?

Boosting pays Instagram to show a post to more people, including people who've never seen TripNerd.

- **Our suggestion:** no boost until a Reel proves itself on its own. From week 3, put a set amount behind the best one.
- **You set the ceiling.** \$250–\$500 for October is enough to learn from.
- **On top of the \$1,500,** paid to Meta from your ad account. Nothing is spent without your sign-off.
- **Reported separately,** so you always see organic and paid results apart.

BEYOND THE POSTS: WHAT WE DO EVERY DAY

20 minutes every weekday, as TripNerd. We reply to every comment and DM, and leave real comments on posts from event accounts, venues and fans heading to the events you sell. It's done from the Instagram app, so on day one we agree who handles it: us, or someone on your team working from our daily list.

The guest loop. At every trip, your host asks guests to tag @tripnerd. We reshare their Stories the same day and, with their OK, turn the best into Collab posts on their account too. Tell us which trips run in October and November.

Your customers, pointed at Instagram. We write a follow link and QR code for your booking emails, itineraries, email signatures and website. Past guests are your warmest followers.

What we won't do: follow-for-follow, mass liking, bots or bought followers. They break Instagram's rules, put your account at risk, and those followers don't stay.

TO START, WE NEED

Partner access in Meta Business Suite (no passwords), **one approver** who replies within two business days, and **all your trip footage** in one shared Drive folder. Taylor's 17th-hole clips first.

THEN YOU DECIDE

Every Monday you see followers, views, the share from non-followers, sends, saves and follows on each video. In the first week of November we review October together, and **you decide what comes next.**
